

UCOL Stakeholder Engagement Groups

UCOL is committed to providing graduates who can be immediately effective in the workplace. Stakeholder Engagement Groups form a vital link between UCOL and the workplace. The College values its stakeholders and is proud to acknowledge the work they put in to assuring the quality and relevance of our programmes.

This work is done on a voluntary basis and is part of their commitment to our students and to us. They ensure we offer programmes that enable our students to succeed and achieve their learning and vocational goals. Stakeholder members assist us to assess the employment market and community needs, to develop programmes that meet those needs effectively, and to evaluate and moderate the quality of delivery of our programmes. We appreciate members continued involvement, often over years, in the work of these groups.
